

# UCSC'S CAMPUS ROADS BIKE AND PEDESTRIAN SAFETY STUDY

## Join us for a design workshop 1/30 -2/1!

The University of California of Santa Cruz (UCSC) has launched the Campus Roads Bike and Pedestrian Safety Study to identify safety enhancements and develop conceptual street designs for key campus corridors.

The study aims to improve safety for vulnerable road users while taking into consideration the broader context of university mobility and the campus experience.

**Please join us at our upcoming three-day Design Workshop to hear more about the project and provide input on how we can improve walking and biking on campus!**

**Refreshments will be provided to participants at all events.**

## PUBLIC EVENTS

**30  
JAN**

### **DROP-IN OPEN STUDIO (WITH THE DESIGN TEAM)**

1PM-4PM
